Bicycle Race Prize For Time

On June 11th, the day the Y. M. C. A. Marathon is to be run at Kapiolani Park, an eleven mile bicycle race will probably be pulled off. Dr. Hand of the Y. M. C. A. is getting the affair up, and has chosen the rather strange distance of eleven miles, because once in the long ago he won a bicycle race over that distance. The Doctor received a diamond-set gold watch for a prize in that race, and has decided to offer it to any local cyclist who can beat or equal the time he made in that event, which was cut out in 29 minutes, 19 2-5 seconds.

There will also be a five-mile junior race on Saturday, April 17, and the course has been changed a little; the start will be made at the corner of Beretania and Alakea; thence down Alakea to King, along King to the League park, up to Beretania and down Beretania to Alakea, where the finishing line will be. Eleven entries are in for this event and the race should be a really good one.

The fact of the contest being brought off on the day prior to the big Marathon will lend much interest to the run, and doubtless a great number of people will line the streets along which the runners will travel. People who live along the route won't have to trouble about leaving home to see the race, as the pedals will pass their doors.

Most of the contestants in the five-mile run are also entered for the Y. M. C. A. Marathon of June 11. These men are in fine condition right now, and really run a chance of becoming stale from overtraining. However, Dr. Hand is an old-time athlete himself, and is wise to every move in the athletic game, and may be relied upon to watch his men closely and see that they do not overdo the training stunt.

Kewalos Play Marines Sunday

Next Sunday, at Atkinson Park, the Kewalos and Marines will play off a baseball game which may decide the championship. If the Kewalos win, they will be ahead of all the teams in the league, and be beyond the possibility of defeat. Should the Marines defeat the Kewalos the result will be a tie for the championship, and another final match will have to be played, to decide who is cock of the walk.

Both teams feel confident of being able to win, and as that is not possible, a very keen and interesting game may be expected. A huge number of fans will root for their respective teams and the excitement should run high right through the game. Dreier will pitch for the Marines, and if he is in as good form as he was on Wednesday last, should make the Kewalos work hard to score off him.

Big Ball Seems Pau For Next Season

The possibility of Big League ball seems very remote, as negotiations have been put under way to lease the league grounds to the Riverside League people. A. K. Vierra is considering the matter, and it may be that the arrangements may be completed. It is a great pity that the big ball games appear to have fallen through for this season, but the real cause of the trouble seems to be that there is so much free baseball played that the crowds will not dig up for gate-money.

However, there will be plenty of ball to be seen, and most of it will be real good, too. The only difference is that instead of having three or four good teams, we will have a great number of clubs, each of which will have one or two first-class men and the balance made up of fair players. This will surely improve the standard of ball right through the island, and the following season we may have quite a number of good new men who under any other conditions would never have come to light.

Regatta Being Worked Up Well

Things are moving in the yachting line now, and within a few weeks the official program for the coming season will be out. The secretary of the Hawaii Yacht Club is busy at present drawing up a schedule of cruises and races for the summer, and as soon as the committee go into the matter the details will be published. The regatta will be the big event and it is looked forward to by all the nautical members of the community. These annual races are the real thing and they are very keenly contested always.

Perhaps the most pleasant phase of the yachting season is the cruise in company with some other congenial souls to a scheduled basin, where the anchor is dropped and, after a refreshing dip, the pipe is lit and the story of the run down discussed. Kaukau never tastes so well as when taken in the open air, either aboard the craft, or under a tent-fly on the shore.

The Pearl Harbor cruises, from Saturday (11) Monday, are delightful, and no doubt during the coming season many such excursions will be made. Then the round-the-island cruises will come off, and possibly a race to Hilo will eventuate also. Taking it altogether, the prospects for the coming yachting season appear very bright, and everything points to a successful regatta as well.

BURNS' OPINION OF DEARIE'S CHANCE

Here is what Tommy Burns said in Melbourne lately: "Jeffries could train down to good form again if he wished, but I doubt if he will. It has always been a hard matter to get Jeffries into solid training work. 'Jeff' is too easy-going, too good-natured for the boxing game to be congenial to him, but there is no man half so formidable when wound up to meet an opponent. If Jeffries trains to meet Johnson, and I hope he will, Johnson will assuredly be beaten, and beaten badly. Johnson's one effective blow is his uppercut — a terribly dangerous blow against a short man like myself, who fights with a crouch, but absolutely useless against Jeffries, who would stand well up away from it. Besides, Jeffries can uppercut worse than Johnson, and in addition can deliver a blow any way at all that would knock out any man. Every blow Jeffries strikes, and his variety is great, is a serious matter. Certainly I challenged Jeffries and tried hard to induce him to meet me, and would have been glad of the opportunity to fight him; but I candidly admit that Jeffries, when fit and well, could beat me, and Johnson, and three or four more of the next best in the ring, one after the other. If it comes to the wrestling and holding tactics that Johnson employed against me, then Johnson against Jeffries would be of no account, for 'Jeff' could hold him as easily as Johnson held me. But 'Jeff' does not fight that way; he knocks his man clean out. If the American people can force Jeffries into the ring they will, and if they do, it will be 'good-bye' Johnson."

Captains Are Changed In Club

The officers of the Honolulu Cricket Club have switched around a little. Captain Buchly, finding that increased business responsibility prevented him from taking the active part he wished to in arranging games, etc., has resigned his position as captain, and the vacancy has been filled by Mr. McGill, who formerly held down the job of vice captain. The executive committee, however, insisted on Mr. Buchly holding some responsible position, and he was elected to take McGill's late position as vice captain.

Tomorrow the sailors of the Doi-barden Castle are to have a holiday and a cricket match is to be played at Makiki. The deep-water men, although defeated last week, are going to have another cut at the local players, and as the tars have had a little practice, the match should be closer than the first one. The cricket ground is in good condition now, and the recent rain has improved the outfield a lot.

The games with the British men-of-war-men lived up the interest in cricket, and generally nowadays more players turn out than has been the case for years. All members who wish to play tomorrow had better communicate with Mr. McGill.
Time: 2 o'clock sharp.

DEPENDABLE PROPRIETARY MEDICINES

It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for thirty years, and today hold a record for thousands upon thousands of actual cures, as has Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.

More Marathon News And Dope

The Marathon race which is to be run on Sunday week at the League ball grounds is attracting a lot of attention from the other islands. Hilo folk are already talking of getting up a similar event in the rainy city. The race-track in that city would be an ideal place for such an event, and no doubt when the accounts of our local long-distance run reach Hilo, the plantation men will get together and arrange a Marathon.

As regards Honolulu's star event of April 18, everything is going on O. K. Thirty-two men will probably start, and Nigel Jackson may be relied upon to compete. His statement to the Bulletin reporter last week was to the effect that he would probably not start in the big race, owing to not being able to devote sufficient time to training. However, Nigel thinks that people may imagine he has cold feet, and to remove that impression the plucky runner has announced his intention of competing. No one could possibly accuse Jackson of cold feet after seeing him finish in the Haleiwa race, and after watching him stand up to Bugler-Sarconi within the squared circle. Jackson is in fine fettle just now, and is training hard for the big race; he will go close to winning, barring accidents.

The Marathon rules which were called for should reach here on April 15, and that will give ample time to the management to publish them. The league track is now marked out and competitors can train there any time they wish. This is most satisfactory, as the runner can time himself much better when he knows exactly what distance he is covering. No doubt a big crowd will turn out every afternoon in the future to watch the men at work.

The first prize in the Marathon will be worth at least \$100, and should be very acceptable to the fortunate winner. Other prizes are also provided for, and a full list will be published next week. Scorers and other officials are being arranged for and all the arrangements will be up to date. Jack Scully is working hard over the details and is fixing up things in great style. If Sunday week is a fine day, and it looks as if the weather was settled now, the largest crowd that ever attended the ball grounds will turn out to watch the greatest event ever pulled off in Hawaii net.

Pottie's Bots and Worms Specific

These remedies not only cause the evacuation of these troublesome pests, but they destroy them and clean up the injury they have produced in the stomach and bowels.

Stock may be given these medicines on the pasture without handling, or while at work.
